

After having started the Clean 9 + Lifestyle 30 program, it has been much easier for me to control my diet throughout the day. I have lost 20 pounds and feel much more energetic. What I like most about the program is the exercise that is recommended, since sports are an essential part of my life. My sister and I, as well as our family, have all enjoyed the wonderful benefits of aloe vera and all of the FLP products.

I want to thank Forever Living Products for their great nutritional and weight loss products. These products have changed me for the better, both physically and emotionally. After five months of following the Clean 9 + Lifestyle 30 program, I have lost 40 pounds and it is easy to control my desire to eat. I feel great, and I can now do physical activity that I could not do before. I cannot believe the freedom that I experience without that extra weight!

My goal is to lose 10 more pounds in the next two months. This is a slow process, but you get results. The first few days (of Clean 9), I suffered a little because of the discipline that you need to have with this program; however, with time my bad eating habits changed. I want to invite everyone who wants to lose weight slowly, but surely, to try this program. They will feel great in every sense of the word. This program does not put you on a diet, but instead teaches you how to eat well and change your eating habits.

This program is a great opportunity to live and eat better!

I've lost 20 pounds with the Clean 9 + Lifestyle 30 programs. When I started the (Clean 9) program, I knew that it would be very difficult for me to lose the weight since I work at a "taquería," a place that sells tacos. After two days of doing the program, I realized that it was going to work. As a result, many people are excited about how the program has helped me lose weight.

My experience with Clean 9 + Lifestyle 30 is one of great success and happiness. Having started the program five months ago, I have now lost a total of 20 pounds and feel better than ever! It is a lifestyle change that includes following the program and increasing the amount of exercise that I do. Now I carefully watch what I eat, and have decreased the amount of sweets that I consume. My exercise includes walking for 45 minutes, three days a week. My sister and I are both following the programs, so we can support one another in reaching our weight loss goals.
